

ALL LABELED WITH YOUR NAME:

___ Camp Trunk

Some Trunk ideas:

- There are various foot locker styles available but here are two. Both sizes are roughly 31x17x13.
- Sterilite Footlocker: <http://www.walmart.com/ip/Sterilite-Footlocker-Black/16415912>
- Both have handles and wheels, and a spot for a padlock. Colors do not need to be only black. Any color will be fine
- Where can I find a footlocker? Walmart, Target, The Container Store, Amazon, etc.
- Prices range from \$30 to \$50.

___ Combination Lock(s) for the trunk

- I'd go with the lock **style** below. Not too hard to remember!
 - [Puroma 2 Pack 2.6 Inch Long Shackle Combination Lock 4 Digit Outdoor Waterproof Padlock](#)

Additional thoughts and reminders!

- Have your son practice his lock code and keep a backup written in a safe place in his daypack.
- Rain gear is going to be critical. Rain jackets can act as a jacket on cool nights.
- All pocket knives must have a Totin' Chip (basically the BSA 'knife carry permit') carried by the user at all times. All first years have earned this.
- Personal First Aid Kit – the scout book has a list of handy things the scout should carry on outings. This does not have to be a formal purchased kit, but can be pulled together with items already in your home placed in a labeled zip lock bag. Occurrences needing minor personal first aid (scrapes and blisters) are easily treatable by the scouts and an expected skill for them to learn as part of their advancement.
- Garbage bags help keep clean items segregated from very dirty and wet items in your son's trunk.
- We do not carry spare batteries or chargers of any kind that the boys are permitted to use. Please bring extras of the right size for all flashlights and headlamps.
- **NO ELECTRONICS!!**
